

ProNordic fastmelt display end of shelf life (EOSL) (i.e. at date of expiration) on pack. Probiotics are living organisms and deteriorate over time (even when refrigerated), presenting other than EOSL is misleading. Most major brands do not specify EOSL on pack, and may present at date of production (DOP). For side by side comparisons with such products please use this table.

Serving Size: 1 Sachet (1 gram)	Servings per Container: 30	
Amount per serving	At Time of Production	End of Shelf Life (if kept at constant 25C)
Total Cultures	9 Billion CFU	3 Billion CFU
Bifobacterium lactis BL-04	6 Billion CFU	2 Billion CFU
Lactobacillus rhamnosus GG	3 Billion CFU	1 Billion CFU
Vitamins		
Vitamin D3 (cholecalciferol)	7.5mcg	7.5mcg

Pharmacy Only

Supplier Code: PMC-FMIM30
